

# Crochet Presentations and Workshops

*Suzann*

SUZANN THOMPSON  
ARTIST, WRITER, SPEAKER

*Creating art and community  
with knitting and crochet since 1980.*

I have been speaking, teaching, and writing about handcrafts and textile arts since the early 1980s. A list of my presentation experience is at <http://www.textilefusion.com/cv.pdf>.

- Presentations and workshops can be tailored to the specific needs of your group. Please let me know what will work best for your group, at [knitandcrochetwithsuzann@outlook.com](mailto:knitandcrochetwithsuzann@outlook.com).
- My current terms for programs and presentations are at <http://www.textilefusion.com/programs-terms-fees.pdf>.

## PROGRAMS:

**Crochet Charm Lace** (3 to 6 hrs). Pin crocheted motifs in any shape you like to a throw-away fabric template. Sew motifs together and remove fabric. The result: lovely and unusual lace, like this scarf → See more at [www.textilefusion.com/crochet-charm-lace/](http://www.textilefusion.com/crochet-charm-lace/)

**Full of Bullion** (3 hrs). Learn to make traditional rolled bullion stitches and variations, and then crochet the fabulous (and easier) vintage double bullion stitch. Includes patterns for a Rolled Bullion Rose, other bullion flowers, trim, and insertion.

**Pretty Picot-Rama** (3 hrs). Practice plenty of pretty picots! Go home with lots of labeled samples. →

**Color Cross Training** (6 hrs). Vincent Van Gogh wound yarn butterflies to study how colors affect each other. If a painter could learn about color from yarn, can yarn users learn from painters? Of course we can! After covering painterly knowledge about value and contrast, we turn to quilters and their wonderful ways with prints and solids (for us this translates to multicolor and solid color yarns). We glean information from weavers and add pizzazz to our color-ways with a fun technique devised by a jewelry-maker.

**Color Composure** (6 hrs). You won't be afraid of color if you approach it the slow and easy way. Learn step by step how to begin with one color and add more and more colors into your knitting or crocheting until you aren't intimidated even by a riot of colors!

**Other Programs** (varying lengths). Crocheters, you may also enjoy a number of my programs, including button-making, for General Audiences: <http://www.textilefusion.com/programs-general.pdf>.
